Certifications

Appian Certified Associate
Developer

Muthukumar Erulappan

Software Engineering Manager | Scalable Architecture, Full-Stack Development & Distributed Systems
Greater Chennai Area

Summary

Hands-on Engineering Manager, I am accountable for the long-term health of the system, not just sprint delivery. That includes architectural direction, technical debt prioritization, and risk management. I own key technical and people decisions, even when they involve trade-offs between speed, quality, and scope. I am responsible for growing engineers through regular feedback, career conversations, and coaching, and for ensuring the team can operate without becoming dependent on me. I also align with product, risk, and downstream teams to ensure we're solving the right problems and not creating integration or operational issues

Experience

Appian

Software Engineering Manager

June 2026 - September 2026 (4 months)

Chennai

Citi India

5 years 4 months

Assistant Vice President

January 2023 - May 2026 (3 years 5 months)

Tamil Nadu, India
